

CHIFFONNADE

CARRÉ BLANC CIE

Chiffonnade is a choreographic creation rich in raw material which can be felt, touched, rustled, pleated, torn, worn or used to disguise and transform our appearance in the eyes of others. Cocooned within a sphere, a character and a multitude of fabrics become partners in a dance of liberation.

The chrysalis grows until child becomes adult, and spreads his fabric-made wings to fly. From pieces of rags, we can create new worlds...

A dreamlike dance show for young audiences that will take you on a poetic journey from childhood to adulthood.
